

# Who are we?

Singapore Medical Society of Ireland (SMSI) is a student-run organization, dedicated to be of assistance to Singaporeans/PRs pursuing Medicine, Dentistry and Allied Healthcare degrees in the Republic of Ireland (ROI). SMSI comprises over 280 members in 5 different universities, forming the largest Singaporean student organization in ROI. We also welcome Singaporeans who are on exchange programmes in ROI, studying other subjects outside health sciences such as Business or Law.

# Our partner organisations & benefactors:

# What do we do?

SMSI works closely with the various healthcare clusters in Singapore and disseminates information from relevant organisations such as MOHH. We are dedicated to providing support to our members over in the Republic of Ireland and exploring opportunities that will ensure a smooth transition into Singapore's healthcare system.

Our events which include social gatherings, educational talks and outreach programmes cater primarily to our current members. In addition, we partner with non-profit organisations that organise yearly medical mission trips.

We also provide guidance to prospective students who are considering studying in Ireland, and to our university classmates (regardless of nationality) who are interested in working in Singapore.

# Aims and objectives

1. To provide relevant up-to-date information for potential medical and dental students, enabling them to make an informed choice with respect to a medical or dental education in ROI.
2. To provide relevant up-to-date information for members on training and career opportunities in Singapore.
3. To serve as platform for members to network with other like-minded Singaporean medical / dental students pursuing an education in ROI.
4. To represent the common interests of all Singaporean medical/dental students pursuing an education in ROI.
